# Masonite® Performance Door System

Tested and trusted performance is good for business. It means happier customers, and fewer callbacks and claims, saving you the time and money spent on costly replacements.

These premium fiberglass doors and their rot-resistant frames are equipped with a 4-Point Performance Seal that makes all the difference.

## 4-POINT PERFORMANCE SEAL:

### 1 SQUARE EDGE DOOR

Square edges are standard on all our fiberglass doors and fit perfectly into the frame. Other manufacturers have proud edges, which create gaps.

### 2 ENDURA PE650 WEATHERSTRIPPING

Made to snap back into shape when bent or twisted, this high-end, low-wick memory foam weatherstripping stops both air and water in its tracks.

### 3 ENDURA Z-ARTICULATING CAP SILL™

Our sill provides advanced protection from leaks, drafts, sand, dust and debris. When conditions change, it automatically adjusts.

### 4 ENDURA SIMPLE SOLUTION® CORNER PADS

These corner pads are designed to stop upward water pressure driven by wind and form a tight seal between the door and its frame.

## An Edge Above the Rest

Every Masonite® fiberglass door with our 4-Point Performance Seal is 64% better at keeping air and water out than the leading competitor, resulting in superior energy efficiency, performance and comfort.
